Charles is now legally entitled to practice before the supreme court and all inferior courts of the state of Kansas and will shortly decide on a location for the practice of law.

Asked as to whether or not he would locate in Liberal Charlie replied that he had several locations in view, but that there was a possibility that he would remain here and open an office.

Should he decide to remain in Liberal he would have the advantage of an extensive acquaintance which would be of material benefit to him in the practice of his profession.

The Present Day Values Greet Seekers of High Class Merchandise

Throughout our entire stock those who are posted as to values will find prices in keeping with the lowest markets. In the price readjustment, which we have recently figured, we have based selling prices on buying costs today, and have no hesitancy in advising our patrons to buy their present needs now. The spring market is established and the new goods we are stocking, as well as those carried over, even though the latter were bought at higher prices, are taking the same price level.

The sharp break in the market which enabled you to buy at reductions as great as fifty per cent, came all at once. In other lines the decrease has been more gradual, allowing the dealers to prepare for the drop, but the dry goods and clothing markets went all at once.

For this reason, it is unreasonable to expect a further decline, for a time, at least, and there will be a reaction of the markets and an upward tendency.

We are acting on this policy in our own buying, and believe our patrons will do the same.
